

Furniture that captures the most discriminating design elements

Distinction Hospitality is headquartered in High Point, North Carolina. Our Team works with designers to develop and provide custom hospitality furniture all around the globe. We have worked collaboratively with designers to develop some of the most beautiful and challenging furniture in the world. Working closely with Michael Graves, New York (special thanks to Julie Yurasek) we developed and delivered more than 75 different case good and seating pieces for the St. Regis, Cairo. The

grand opening is slated for early 2019 – grand furniture on the grand Nile. One of my personal favourites from the St. Regis, which is featured in our High Point showroom, is the guest room nightstand crafted from beautiful oak solids, with a rich blackened ceruse finish, and mother of pearl inlays on the bowed drawer fronts as well as hand inset into the tops. We are currently delivering what I consider to be among the most challenging furniture projects ever developed (Shawn Hausman, New York) – the Standard London. Our

team would also enjoy working with you on something more simple such as the Embassy Suites Toronto where design was inspired by, and selected, our in house developed collection, Silhouette that features grey tones, textured surfaces, and metal attributes. We would be honoured to have the opportunity to work with you on your next project from New York to London to Cairo, wherever it may be in the world. We wish you great success and best regards, Stan Sapp, President & CEO, Distinction Hospitality.
